

## **Ruby Ranch Snow Plowing and Snow Removal Policy**

### **11.15.21**

Willow Brook Metro District is responsible for snow plowing and snow removal along all Metro owned roadways and easements.

#### **Roadway and easement priorities and guidelines**

- Plowing routes have been prioritized to create an efficient and effective plan for snow plowing and snow removal during and after storms.
- Plowing will start as early as 5:00 AM following a snow event. Priority routes will be completed, followed by secondary routes.
- Plowing during a storm will focus mainly on priority roads. Secondary roads will be plowed at the discretion of the operator.
- Plowing around the trash area will be completed before the Barn and Gatehouse parking lots. Parking lot areas are considered secondary.
- As time permits, cul-de-sacs and pullouts will be cleaned up, and roadways/easements/emergency exit will be opened up.
- The goal of the Metro District is to get all Ruby Ranch roadways and easements plowed off as quickly and as safely as possible. These are guidelines to help us achieve this goal, and likewise may change as we move through the 21/22 snow season.

**Please contact the Ranch Manager, Patrick O’Flynn, if you have any questions or concerns regarding Ruby Ranch priorities and guidelines.**
